Dear Josh:

I was delighted to read in the March 17, 1971 Examiner of your recent letter to the Health Subcommittee of the Senate Committee on Labor and Public Welfare. For your information I am attaching a copy of my testimony before the Committee supporting essentially the same position you adopted.

I do believe that Congress needs to take some definitive action to indicate a commitment to the conquest of cancer and to establish a mechanism for oversight so that funds will not be siphoned from other programs such as health research facilities construction or training grants.

With best wishes.

Sincerely yours,

Philip R. Lee, M.D.
Chancellor
